

THE GREAT GUIDING MYSTERY SPY CIPHER!

Instructions:

1. Print out cipher sheet on thick paper, or glue onto cardstock.
2. Cut out the two disks and the small square on the inner disk.
3. Punch a small hole in the centre of both wheels, and use a butterfly pin to fasten them together.

To Code A Message:

- Turn the inner disk to set the code
- For each letter in your message, find it in the outside ring, and replace it with the letter in the inner ring

To Decode a Message:

- Turn the inner disk to set the code
- For each letter in the message ring, find it in the inside ring, and replace it with the letter in the outside ring
